## FARGO, NORTH DAKOTA

UNITED STATES DEPARTMENT OF AGRICULTURE

1963 Edition No. 5

March 4, 1963

**SALES** - The week of February 22 was the best to date. Let's keep the number climbing each week until the 1963 goal is reached and exceeded by March 31.

Our next report goes to Washington on March 11, so we again request that your sales report for the week ending March 8 reach us on Monday, March 11. We know you can do it because it was done with your February 22 report. We appreciate your cooperation in this.

### IT COULDN'T BE DONE

Some one said that it couldn't be done,  
But he with a chuckle replied  
That "maybe it couldn't" but he would be one  
Who wouldn't say so 'till he'd tried.  
So he buckled right in with a trace of a grin  
On his face, if he worried he hid it.  
He started to sing as he tackled the thing  
That couldn't be done, and did it.

Somebody scoffed, "Oh, you'll never do that;  
At least no one has ever done it,"  
But he took off his coat and he took off his hat,  
And the first thing we knew he'd begun it,  
With a lift of his chin and a bit of a grin  
Without any doubting or quiddit,  
He started to sing as he tackled the thing  
That couldn't be done, and he did it.

There are thousands that tell you it cannot be done  
There are thousands to prophesy failure  
There are thousands to point out to you one by one,  
The dangers that wait to assail you.  
But just buckle in with a bit of a grin  
Just take off your coat and go to it,  
Just start to sing as you tackle the thing  
That "cannot be done", and you'll do it.

-----Edgar Allen Guest

Page 10

July 1941. The first of these was the discovery of the first of the "new" type of bacteria, which was found in the soil of the "new" type of bacteria.

The second of these was the discovery of the second of the "new" type of bacteria, which was found in the soil of the "new" type of bacteria.

The third of these was the discovery of the third of the "new" type of bacteria, which was found in the soil of the "new" type of bacteria.

The fourth of these was the discovery of the fourth of the "new" type of bacteria, which was found in the soil of the "new" type of bacteria.

The fifth of these was the discovery of the fifth of the "new" type of bacteria, which was found in the soil of the "new" type of bacteria.

The sixth of these was the discovery of the sixth of the "new" type of bacteria, which was found in the soil of the "new" type of bacteria.

The seventh of these was the discovery of the seventh of the "new" type of bacteria, which was found in the soil of the "new" type of bacteria.

1963 Edition No. 6

CURRENT SERIAL RECORDS

March 13, 1963

SALES - About all we can say is, "keep plugging away". Make the contacts.

Make maximum use of your mail and advertising. The goals can still be met and exceeded. Hard work will do it.

CANCELLATIONS - Please check your weekly report figures against the ones we show in the Nodak News. We still aren't in agreement in all counties. Cancellations in spite of reinstatements are going up. Most of this is due to changes from combined crop to separate crops in combined crop counties. The loss is counted as a cancellation but the separate crops are counted as add-ons.

RECONCILIATION OF ACCOUNTS - Because of the limited time for this job, it is necessary that our instructions be carefully followed. Refer any questions to us.

AGENTS EARNINGS - We have received many of the summary sheets. They will be sent out this week. If errors are found advise us on Forms FCI-6 and we will ask the Branch Office to recheck.

DEC 17 1964

1963 Edition No. 7

CURRENT SERIAL RECORDS

March 19, 1963

SALES - The totals are moving up toward the figures that will represent goals met and exceeded. The sales campaign has moved into high gear in all areas. Your continued efforts will spell success. Our next report to Washington goes in on Monday, March 25. We ask that your report for the week ending March 22 reach us on Monday. We know you can do it because it was done with your March 8 report.

RECONCILIATION - If you have no exceptions, please advise us accordingly. Please study our memo carefully and follow the instructions. It is important that this job be completed without delay.

AGENTS EARNINGS - If you are not in agreement with the Branch Office, advise us on Form FCI-6 as to the errors and we will forward to the Branch Office for checking.

ACREAGE REPORTS - You have probably received your headed up reports from the Branch Office. We note that the old dollar per acre selection has been shown (at least the Cass County reports show it). These figures will have to be deleted and the value per bushel selection as made by the insured or the automatic selection must be entered for every crop insured under the contract. Refer to your procedure.

CORRECTION - The telephone number for Barnes County is 8452618 rather than 845261. Please correct the recent listing sent to you.

[illegible]

155.

# NEWS

1963 Edition No. 8

CURRENT SERIAL RECORDS

March 28, 1963

SALES - With this issue of the Nodak News we are preparing the sales report in a little different manner than before. Instead of a weekly report and a Nodak News report, only one report will be prepared but it will show all the information that has been shown before.

This week we again received a report from every county. Your cooperation is most certainly appreciated.

Howard Piehl's area is in the plus column on crops sold. The area has met and exceeded its net acre goal. Cass and Richland counties are leading in crop sales with both near the 500 mark and probably over by now. Our congratulations to Howard, his agents and fieldmen who have made this possible.

RECONCILIATION OF ACCOUNTS - We want to clean up this work as soon as possible.

Please send in your exceptions immediately if you have not done so. Also check to see if ASCS set-offs will pay up any accounts and advise us as requested in our instructions on reconciling. Review these again to be sure that nothing has been overlooked. We want to hold the debt terminations to the absolute minimum.

*H. G. Schonberger*
